

# Analog Devices' "High-Speed Design Techniques Seminar": Your Best Way To Stay Ahead Of The Pack.

Get into gear to set a new pace for leading high-speed design solutions. All the short-cuts and money-saving techniques you need to create winning products on schedule will be available at Design Seminar '96.

And we're not talking theory. This is a smart pit stop for designers who are constantly maneuvering around those elusive clock speeds. Gain invaluable insights and practical information from Analog Devices, a world leader with over 30 years experience in analog/digital design.

No matter where your expertise lies, you can renew your "pro" status with our full-day seminar series (starting in October) on these and other high-speed topics:

- High-Speed Switching
- Video Multiplexing
- Low-Distortion, High-Bandwidth Voltage and Current-Feedback Op Amps
- Wideband, Single-Supply Systems
- Wide Dynamic Range A/D Conversion
- Narrowband and Broadband Receivers
- DDS Systems

Admission is just \$30, which includes lunch, refreshments, a 500-page "High-Speed Design Techniques" handbook and a tote bag filled with free gifts.

Reserve your seat now by mailing a check payable to "Analog Devices, Inc." to: Analog Devices, Inc., Attn: Design Seminar '96, Ray Stata Technology Center, 804 Woburn Street - MS-124, Wilmington, MA 01887.

Call 1-800-ANALOGD (262-5643)<sup>†</sup> today for more information or to charge your ticket. For a registration form, dial AnalogFax™ 1-800-446-6212,<sup>†</sup> then enter Faxcode "1996". Or simply contact us on the World Wide Web.

But hurry, because seating is limited. And to stay ahead of high-speed design, you'll have to move fast.
